

SWiRAS DEVICE –

SL868-1/3/4 CHANNEL RF RMOTE CONTROL POWER SWITCH MODULE

SL868 RF Remote Control Power Switch Module, such a wonderful product installed in the house lighting system, can absolutely bring you the tremendously convenience and comfort. This solution consists of a Remote Control and a Receiver Module so that the lights can be switched On/Off wirelessly. The original wired power switch is still workable. In addition, with application of SwiRAS Gateway and operating software, your Smart Phone (including iPhone, Android Phone and all the other Smart Phones) can access the commands like the Remote Control as well.

Therefore, no matter you are in the living room/bedroom, basement/3rd floor or office/mall, with SL868, you can easily turn On/Off the lights of your home by the Remote Control or Smart Phone.
